

Name: Jesse Cummins _____

Due Wednesday, 8 January, by midnight.

Our course web page at shelby.ewu.edu is still being set up. I will send an announcement with instructions on how to submit this document as soon as possible. ONLY in the event that the page is still not ready, email me this document in pdf format at dan-488@csmail.compsci.edu.

Your preferences (use the numbers from the projects above):

First	13 (however I have no experience in mobile development and wonder if that would be an issue)
Second	6
Third	4
Fourth	2
Fifth	7
Sixth	12
Seventh	8

Your skills

Check those that apply or list more details where necessary

Java	I am most experienced in Java.
Php	
Asp	
C#	After Java this is my most comfortable language though my only experience in it is from the .NET Web Dev class (CSCD 379) and .NET Programming (CSCD 306).
Database (specify)	MySQL (CSCD 327)
Java Script	
Network Programming	Exposure to this but my knowledge of it is minimal.
Mobile Development	
C/C++	I have exposure to and experience in these but I feel rather weak in them.
Other (specify)	Basic knowledge of HTML5, CSS3, electronics engineering technician a.a.s.

Rate yourself on the following criteria using a scale of 1 to 5 (where 5 is the best):

Work Ethic	4
Communication Skills	3
Technical Knowledge	3
Problem Solving Ability	4
Maturity	4
Ability to self-educate	4
Enjoy being in computer science	4

Indicate any fellow students you DO NOT want to work with. This will remain confidential.

I do not have any students that I do not want to work with. However, I worked with Danny Beaumont during Software Engineering and if possible would prefer to work with him.
